One Page Report on

“Demonstration of Fire Extinguisher”

Resource Person: - Mr.Nitin Rajshekhar

Day & Date: - Friday 5th July, 2019

The Electrical Engineering Department had arranged a demo Session on fire safety and how the fire extinguisher works for all the students of Electrical Engineering on 5th July, 2019. The demo session was conducted by the fire fighters in the presence of departmental staff. The demo was very much useful for the students to understand the working pattern of fire extinguishers.

The demo session was conducted in two parts

- 1) Introduction to fire extinguisher & its types.
- 2) Practical working.

The students learned and operated it, had a great experience, which they can use in their real life wherever and whenever necessary to save the accidents occurred due to fire.
